Professional Summary

A B.Tech student with foundational knowledge of Java , Python , and C , with a strong interest in Artificial Intelligence, Machine Learning, and Data Science. Interested in developing programming skills, strengthening problem-solving abilities, and exploring core concepts in emerging technologies.

Skills

- **Languages:** Java, Python, C
- **Web:** HTML, CSS
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)
- **Tools:** Git, GitHub

Projects & Technical Implementation

City Multi-Specialty Clinic | CLI System

C, File I/O, Data Structures

(Team Project - Backend Engineer (Portals & Triage))

- **Reception & Triage Workflows:** Programmed the primary employee dashboard to manage complex patient intake operations, dynamic ward assignments, and discharge status overwrites, while integrating a standalone flat-file pharmacy ledger.
- **Patient Portals & Identity Verification:** Engineered the patient self-service kiosk for medical history and invoice tracking, and built a universal password recovery engine that securely cross-references user identities across multiple structural databases.

Programming Fundamentals (C, Java, Python)

- Practiced variables, conditional statements, loops, functions, arrays, and strings through basic console-based programs.
- Practiced solving basic programming problems.

Object-Oriented Programming

- Practiced classes and objects using Java and Python, including inheritance, polymorphism, encapsulation, and abstraction.
- Created simple programs using OOP concepts.

Data Structures & Algorithms

- Practiced arrays, strings, linked lists, stacks, and queues.
- Learned basic searching and sorting algorithms and solved basic DSA problems.

Basic Web Development (HTML, CSS)

- Created basic web pages using HTML and styled page layouts using CSS.
- Used headings, paragraphs, links, images, tables, and forms.

Education

B.Tech in Computer Science and Engineering (2025-2029)

JIS College of Engineering, Kalyani

Pursuing

Interest

- Artificial Intelligence / Machine Learning
- Data Science
- Web Designing
- Programming
- Hackathons
